

2023/30448/470/2

CERTIFICATE

Biggestleaf (Pty) Ltd

has offset 309.90 tCO₂e for Mar – Sep 2023

With:

Uchindile Reforestation Project – Tanzania
Verra Carbon Standard #142

Climate Neutral Group, part of Anthesis Group, invests in carefully selected offsetting projects which combine CO₂-reduction and/or removal solutions with wider social and environmental additional benefits. These socially progressive projects improve the quality of life of people who are threatened by the impacts of climate change. As such, they are a powerful tool for sustainable development.

CERTIFICATE

BIGGESTLEAF (PTY) LTD

has offset 161.88 tonnes of CO₂ equivalent for 2022 FY

with carbon credits from
Uchindile Reforestation Tanzania Project
Verified Carbon Standard (#142)

Climate Neutral Group invests in emission reduction projects which combine energy, environment and developmental solutions into sustainable business opportunities in developing countries.

Our offset projects are carefully selected for their wider social and environmental benefits. These socially progressive projects simultaneously reduce carbon emissions and improve the quality of life of people who are threatened by the impacts of climate change. As such, they are a powerful tool for sustainable development.
